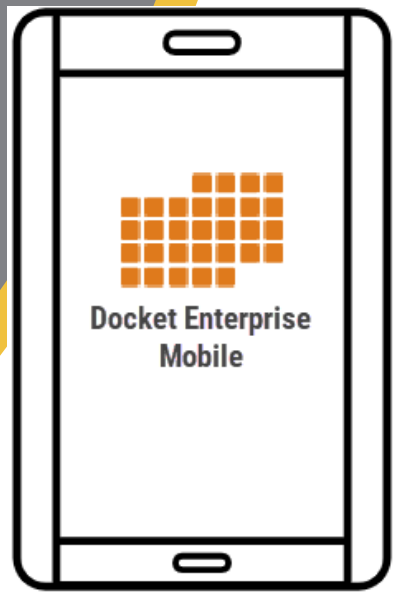
What's New in the Legal Suite release 4.2?

At ILTA>ON (August 2020) a brand-new release which includes:

- Matter Related Parties
  - Also used for document assembly
- Contact – Organization Connections
  - Great for your firm's business development efforts
- Custom Tables
- Document Assembly content selection "by bookmark"

What's New BEC Legal Suite MatterLink, Docket, LegalBar, Assemble-It 4.2 (download)

What's Next for the Legal Suite?



Docket Mobile app - Q3 2020

A tool for client/matter-based scheduling in Microsoft Outlook, like Docket Enterprise itself.

View the C / M schedule while on the go.

Schedule matter-related appointments and tasks to the matter, practice group, and firm calendar.

Available for Android and iPhone

What's Next for the Legal Suite?

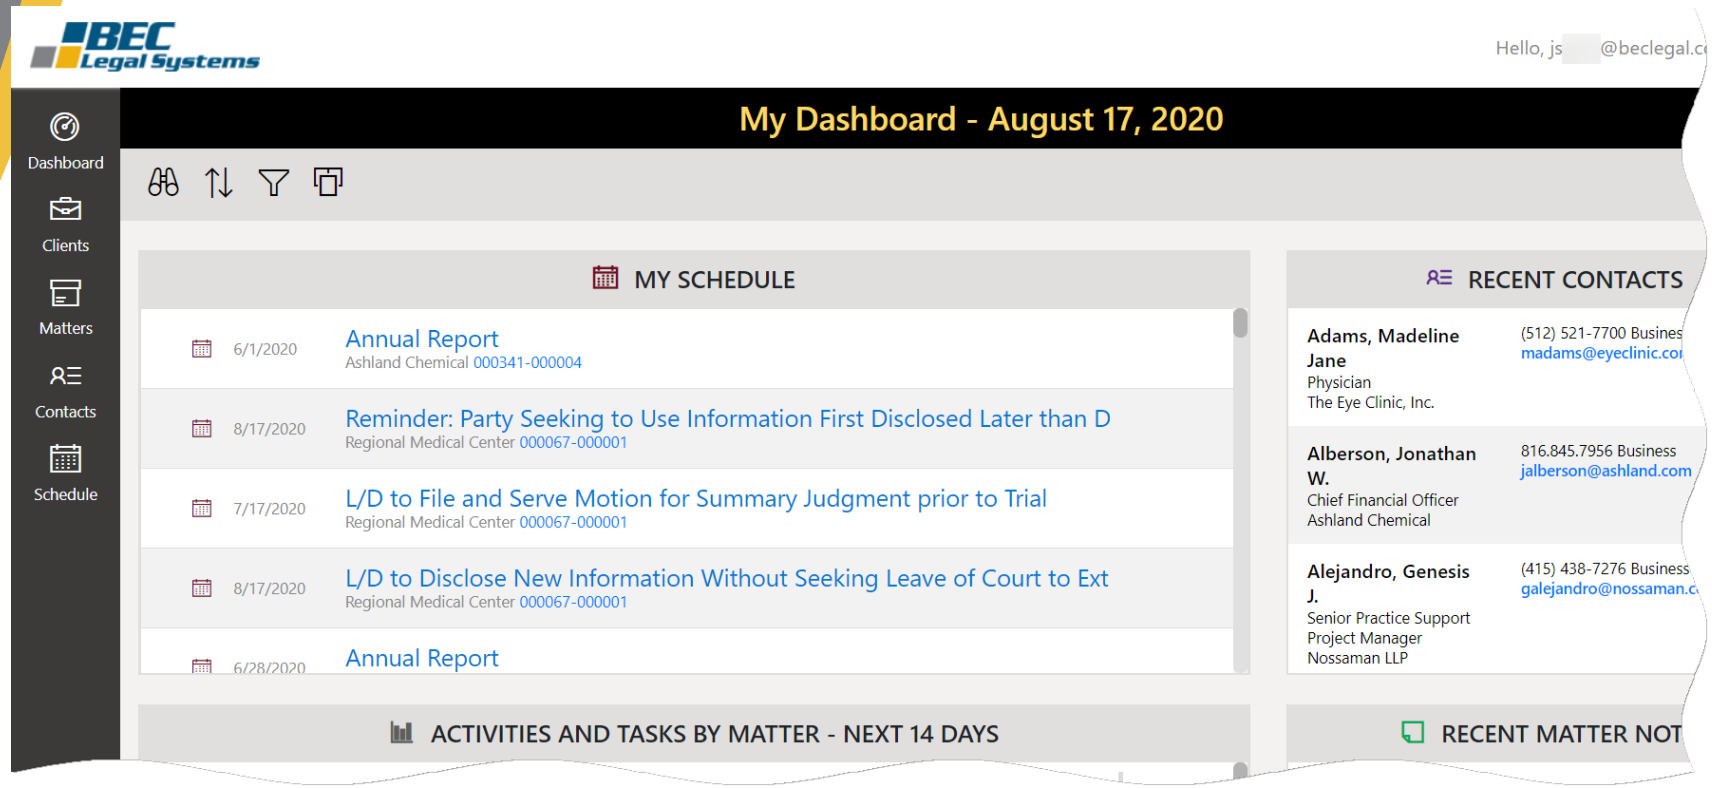
MatterLink Web - a new product - Q4 2020

A web-based view of MatterLink client, matter, contact, and schedule information

Display your matter and calendar data in Teams or any other portal or application

NEW!

For the WEB!

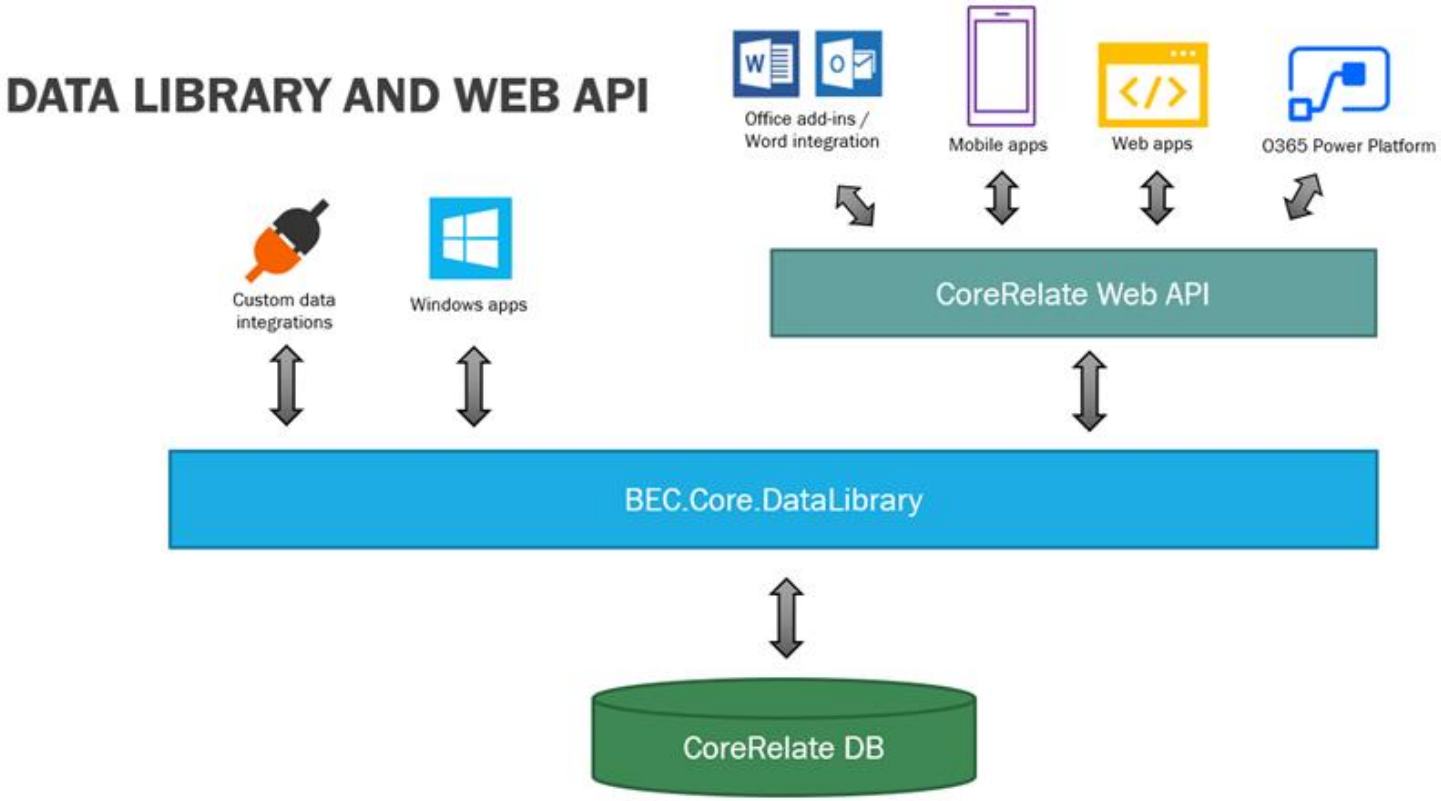


What's Next for the Legal Suite?

CoreRelate Web APIs

Make use of your valuable MatterLink and Docket information anywhere!

- **Core Data Library:** Best-of-breed .NET Standard 2.0 API (for in-house developers and partners using .NET Framework and/or .NET Core)
- **CoreRelate Web API:** Best-of-breed REST API, built atop Core Data Library



And after that?

Release 4.3

Docket Enterprise enhancements:

- Parent Matter / Child Matter scheduling
- Court feed integration

Document Assembly enhancements:

- Letter Express
- Pleading automation improvements
- New MatterLink integration experience
