

Centralized, hosted legal calendaring for the entire firm

Designed for litigation and transactional practice groups, CoreRelate provides the powerful matter-based scheduling tools and calendar management features firms need.

Powerful, flexible legal calendaring features

- Modern design and intuitive, easy-to-use features
- Industry-leading Outlook synchronization and matter-based recipient lists
- Date formulas for automatic date shifting and recalculation
- Custom and court-rules-based scheduling templates

Designed to meet busy attorneys' needs

- View your schedule anywhere, on any device – perfect for busy attorneys on the go
- Stay on top of your meetings with Outlook calendar sync, a sleek Outlook task pane, personal color coding, and email reminders
- View upcoming meetings and deadlines in the daily digest, a convenient way to view and interact with your schedule

Simplify maintenance and administration

- Receive automatic updates with new features
- Use CoreRelate's public REST API as a central source of data for custom reports, workflows, and application integration projects
- Manage user turnover and security with administrative controls designed specifically for law firms
