

FOR IMMEDIATE RELEASE

BEC Legal Systems Achieves SOC 2 Certification for CoreRelate Application

Cincinnati, OH – September 16, 2025 – BEC Legal Systems today announced that its CoreRelate platform has achieved SOC 2® certification, reflecting the company's commitment to data security and operational excellence.

Launched in Q1 2025, CoreRelate is BEC Legal's hosted solution for legal calendaring and docketing, with expanded case management functionality in development. The SOC 2 certification—an independent standard developed by the American Institute of Certified Public Accountants (AICPA)—confirms that CoreRelate meets stringent requirements for security, availability, and confidentiality.

"Obtaining the SOC2 Type 2 certification is a significant milestone for our company. It reflects BEC's unwavering commitment to data security, privacy, high availability, and operational excellence, and reinforces the trust that our customers place in us to safeguard their valuable client data," said Roger Bonine, VP of Technology at BEC Legal Systems. "The rigorous controls mandated by SOC2 will ensure that our cloud operations, IT, and leadership teams are consistently following best practices and taking appropriate steps to monitor critical systems. We are proud of our team's continuing dedication to upholding the highest standards of integrity, competence and compliance."

About BEC Legal Systems

BEC Legal Systems has served the legal industry for more than 30 years, providing software solutions that improve calendaring, case management, and document automation.
